March 11, 2013

Dr. Carolyn W. Meyers
President
Jackson State University
JSU Box 17390
Jackson, Mississippi 39217

Dear Dr. Meyers:

The Hemingway Neighborhood Association supports the construction of a football stadium near the Jackson State University campus.

As home owners, and residents around the campus, we believe that a stadium near Jackson State University will have a positive impact to our neighborhood. With over 10,000 residents living within a one-mile radius of the campus, this development can bring employment within walking distance to a large number of families.

The many supporting businesses will also provide our residents with new amenities that we would otherwise not have. People buying lunch, groceries, gas and making other purchases will circulate new dollars in our neighborhood which should allow existing businesses to hire more staff. This project becomes a win-win for the neighborhood, Jackson State University, City of Jackson and Central Mississippi.

We request that the State of Mississippi Legislature whole heartedly support this effort by providing financial assistance to Jackson State University.

Sincerely,

Zenotha Robinson
President
